To all licensees, and distributors of software officially licensed under a UC Berkeley version of the BSD license:

As you may know, certain software officially licensed by UC Berkeley using the original 4-clause BSD license required that further distributions of products containing all or portions of the software acknowledge within their advertising materials that such products contain software developed by UC Berkeley and its contributors.

Specifically, the provision reads:

"3. All advertising materials mentioning features or use of this software must display the following acknowledgement: This product includes software developed by the University of California, Berkeley and its contributors."

Effective immediately, licensees and distributors are no longer required to include the acknowledgement within advertising materials. Accordingly, the advertising clause 3 of the original 4-clause BSD license for any and all software officially licensed by UC Berkeley, is hereby deleted in its entirety.
