**\$62M**

Amount of funding reported by the UC Berkeley and UCSF spinoff companies on the List

**638**

Number of startup companies that have been formed from University California research as of 2013 across all campuses. A UC startup is defined as a legally organized/incorporated company whose formation depended on the acquisition of rights to UC's interest in at least one disclosed UC technology.

**ABOUT THE LIST**

This List includes active, independently operated companies incorporated between 2009 and 2013 that formed to commercialize technology created at the University of California, Berkeley and University of California, San Francisco. Companies are located in the Bay Area, which is defined as Alameda, Contra Costa, Marin, San Francisco, San Mateo and Santa Clara counties.

Information was obtained from the University of California Office of the President and campus representatives. Companies that have not received funding or did not report funding are unranked on the list. Companies in stealth mode are not included.
